

Our apologies for the absence of this document. We are having difficulty with the pdf format of the school circular for the summer term.

Please see the printed copies issued to all our pupils. It contains articles about the Geography Department trip to Iceland, the Economics Department trip to Russia, an article on Mr Morgan's trip to Sudan to view the work of the charity Education Action International as well as general news and the termly calendar digest.

We hope to have the problem sorted in the near future.
